## **Getting Vaccinated Has Never Been Easier – No Appointments Needed!**

People now have more options than ever for getting the COVID vaccine!

You can now get immunized at all county-run vaccination sites with or without an appointment. It's up to you.

Prefer the one-dose or the two-dose vaccines? Take your pick when you come to most of our vaccine clinics. That's up to you, too. Oh, did we say that it's totally free to you? Because it is.

We offer more than a dozen vaccination clinic sites across the county, including many with convenient weekend and evening hours.

Vaccination is available to everyone ages 16 and older regardless of whether they live in Contra Costa County or not. Come one, come all!
