How to Verify Vaccination Status or a Test Result

✓ **To enter inside the business, each customer who is 12 or older must show photo ID and one of the following:**
- Proof of full vaccination against COVID-19
- A COVID-19 test result from the past 3 days that shows the person tested negative

✓ **Test results**
- Test results can be paper or digital, legible copies or photos. It could be a note from a healthcare provider or a report from a laboratory.
- Make sure the name on the record matches photo ID for each customer.
- Make sure the date on the test is AT MOST three days ago, and the result was negative.
  o Example: If the test result date is Tuesday, the person is clear to enter through Friday.

✓ **Proof of vaccination**
- Valid proof of vaccination could be
  o a CDC Vaccination Record Card, or a copy or picture of the card
  o documentation from a healthcare provider stating the person is vaccinated
  o a personal digital COVID-19 vaccine record issued by the State of California or another jurisdiction
- Check the date on the vaccination record
  o If Pfizer or Moderna, the second dose should be at least 14 days before today's date
  o If Johnson & Johnson (Janssen), the first dose should be at least 14 days before today's date

✓ **Digital vaccination records**
- Customers who download their digital vaccination records can show you their dates of vaccination on the screens of their smartphones.
  o A customer vaccinated in California can visit *myvaccinerecord.cdph.ca.gov* to download their vaccine record to their smartphone in just a few minutes.
  o The customer can show you their vaccination record on the screen of their phone. It includes the date they were fully vaccinated.
  o Records from California and many other states also have a QR code that can be scanned for quick verification using the free SMART Health Card Verifier App, available free at the *Google Play* and *Apple App* stores.
